- **RSPO Principles and Criteria for the Production of Sustainable Palm Oil** (2018).  
All traceability levels are recognized.

## **Certifications that fulfills KRAV's standards for Extra Requirements for High Conservation Value but not for Social Responsibility**

- **Bio Suisse Standards for the production, processing and trade of 'Bud' products**,  
Effective as of 01. January 2023. Part V: Standards for Operations Outside of Switzerland and for Imported Products.

## **Evaluated but not Recognized Standards for High Conservation Value**

*Standards which have criteria for nature conservation, where the standards do not fulfill the extra requirements in the KRAV standard.*

- **Control Union Fair Choice Social and Fair Trade Standard V.3.0** (2013)  
**Motivation:** The criteria are different in general, and do not prohibit cultivation of land with High Conservation Value.

*For questions or if you want KRAV to evaluate a System for Certification or Supplier Evaluation which is not in the list please contact [food@krav.se](mailto:food@krav.se)*
