

Recognized Certifications which fulfill KRAV's Extra Requirements for Slaughter

KRAV's extra requirements for slaughter are met by slaughterhouses certified according to the standards below. You will find the extra requirements in 16.8.4 General Extra Requirements for Slaughter in the KRAV's Standards 2022

Please observe that the animal husbandry also has to fulfill the KRAV standards in section 16.8, for a meat product to be KRAV-certified.

-
- **Naturland Processing Standards** Version 06/2021, Part D. XVII.
Processing Standards for Transport and Slaughtering
 - **Soil Association Organic Standards Abattoirs and Slaughtering**, Version 18.5,
November 2020

Evaluated but not Recognized Standards for Slaughter

BioSuisse Standards (1.1. 2020)

Motivation: BioSuisse do not have specific standards for slaughter.

For questions or if you want KRAV to evaluate a Standard which is not on the list please contact food@krav.se
