## WAYS TO VERIFY THE EXTRA REQUIREMENTS

---

This checklist shall be used to verify KRAV's extra requirements in chapter 16 for the type of production mentioned above.

A prerequisite is that the operator is certified according to Regulation (EC) 834/2007 or to equivalent production rules in accordance with Article 33 in (EC) 834/2007. The product shall always be accompanied by a valid EU-certificate.

You will find more information about KRAV's extra requirements at our webpage: [www.krav.se](http://www.krav.se) and the KRAV Standards at: [www.krav.se/krav-standards](http://www.krav.se/krav-standards)

The checklist shall be filled in and signed either by:

1. A person working as auditor at a certification body accredited for organic certification.

or

2. A person with experience from auditing according to standards for organic production or social responsibility, assigned by a KRAV-certified importer. It must be done by a person outside the company that is being audited.

KRAV has verification agreements with a number of certification bodies that can offer verification of KRAV's Extra Requirements, although any accredited Certification Body can use the checklists.

You will find a list of certification bodies with verification agreements here: [www.krav.se](http://www.krav.se)

The Operator must not use the KRAV-label, or state that the production is KRAV-certified. He or she can only state that KRAV's extra requirements in chapter 16 (for the type of production that the checklist covers) have been verified.

The checklist is only valid as verification when all extra requirements are fulfilled. When asked for, the verification notes under each question, must be filled in.
