SLAUGHTER

PRICE

If you are certified for slaughter you may store and handle products and resell whole, half or quarter portions.

If you butcher or further process and package products, you must be certified according to the standards on food processing. This applies whether it takes place within your own company, as a contract assignment or for retrieval.

The fixed basic price applies to all facilities.

Basic price per facility 1,000 SEK

If you only sell all meat in whole, half or quarter portions, you pay only the basic price as slaughter is your only type of production.

Slaughterhouses that Process

If you further process or package products, you must be certified according to the standards on food processing and register the products and report the sales value in "Mitt KRAV". Sales values for meat sold as whole, half or quarter portions are reported as zero. Report the name of the company receiving the product (whole, half or quarter portions) as the item name.

This applies whether it takes place within your own company, as a contract assignment or for retrieval.

Definition of retrieval: When the slaughterhouse slaughters and perhaps also butchers and packages, but the product is retrieved by the KRAV-certified animal owner.

FOOD PROCESSING, IMPORT AND BRINGING IN

PRICE

The annual license fee is based on your sales value (excluding VAT and other taxes) for KRAV-labelled products, as given below. You pay per company regardless of whether you have several places of production.

Sales value	< 1 MSEK	600 SEK
Sales value	1 - < 80 MSEK	0.50%
Sales value	80 - < 160 MSEK	0.40%
Sales value	160 - < 320 MSEK	0.30%
Sales value greater than	320 MSEK	0.20%

The total sales value for 2023 must be reported to KRAV by 15 March 2024 per article in "Mitt KRAV".

If the company's sales value is greater than 1 MSEK the entire value in the respective license level is counted.

This means that:

- If the sales value is 0.9 MSEK you pay only the set fee (600 SEK).
- If the sales value is 2 MSEK you pay the variable fee based on 0.50% (2 MSEK * 0.50% = 10,000 SEK).
- If the sales value is 85 MSEK you pay 0.50% of the 80 MSEK and 0.40% of the remaining 5 MSEK (400,000 SEK + 20,000 SEK = 420,000 SEK).
